2025 SUMMER CAMP SERIES

JUNIOR ELITE

Junior Elite Camp is for all levels of GK experience.

We will have a full staff and will group keepers by 'developmental age' based on assessment during the first session. We want to welcome the beginner GK who's never played before and the more experienced GK with an interest in playing at the college level who is serious about doing what it takes to get there. We group keepers according to where we think they'll best succeed so that each gets the best experience.

We'll start the camp with technical basics to ensure that each camper is exposed to the tools necessary to have a great week at camp. From there we'll group the keepers by experience level. Once grouped, we will work on more advanced topics like footwork, diving, 1v1s, dealing with crosses, communication, and the different types of distribution that today's game requires. With this grouping approach, we do our best to ensure each keeper is in the best learning environment possible.
